E800

Integrated Smart POS

New Generation Electronic Cash Register Solution All-in-One **|** Housing Unit: Tablet, Printer, PED, Ports **|** Modular Design Seamless User Experience **|** PayDroid Powered by Android

Fashionable, Flagship POS

Supported by the PAXSTORE open software distribution platform, within which payment service providers create and manage their own independent appstore marketplaces.

The E800 is ideal for fashion & hospitality merchants requiring a more cost efficient and space saving solution. Data input by staff is easier on this large tablet color touchscreen, while the opposite is a bright customer facing display and integrated payment acceptance module. An inbuilt camera and router enable barcode & QR code scanning as well as a WiFi hotspot service, while the base unit houses a printer with automatic receipt cutter and multiple ports for connecting peripheral hardware.

A merchant's total cost of ownership is drastically reduced when using the E800.Improve and modernize your checkout areas by replacing old fashioned cash register equipment with one of the stylish E-Series workstations from PAX Technology.
